

Trenton made a promise to us. Now they **must** keep their word.

Last year, tens of thousands of New Jersey state workers negotiated a contract with Trenton that saved taxpayers hundreds of millions of dollars while guaranteeing a secure retirement for our families. The Governor, the Legislature and the hard-working women and men of the Communications Workers of America agreed to this contract.

Now, Trenton is going back on its promise.

They propose cutting our pensions and putting our futures at risk.

There is a better way. Trenton should start by eliminating real waste and fraud, closing corporate tax loopholes and raising taxes on the wealthiest.

We cannot allow politicians to break their word and hurt working families.

Call Trenton. Tell them to keep their word.
Protect our future. 866-288-1495
