

Tell the Civil Service Commission to Lay off our Layoff rules!

On March 25, 2009, with 24 hours notice, the Civil Service Commission passed emergency rules that permit “temporary layoffs.” These rules are designed to permit Local, County and State government to order unilateral furloughs of any time period without regard for seniority or bumping rights. The rules allow management to exempt some workers and not others and they provide for NO negotiations.

Now they want to make the EMERGENCY rules permanent.

CWA has filed for a STAY in court of the Temporary Rules. Even if we win that – we still need to fight the PERMANENT rules. CWA is also filing an Unfair Labor Practice Charge at the Public Employment Relations Commission (PERC). We do not have a date for that hearing yet but we will need to turn out for that hearing as well when it is scheduled.

We plan to have buses leaving from the following locations. If you plan to take the bus, indicate your preference below and we will call you with exact locations and times once finalized.
